Download: Word • Excel • PDF • Google Docs • • Pages Writing a tasks to-do list is only as effective as the time spent on those tasks. Do you think you spend too much time doing your day's chores? Or that they tend to spend too much time tweaking work tasks perfectly – a measure that results in many missed project deadlines? Then try Clockify, free time tracking software that allows you to track time for each type of task you need, down to a second. Every time you start working on a task from any task list template, simply start the timer in the app. Later, when you select the task as completed in a to-do list template, stop the timer. You can create a project for each task type separately, and then store the time tracking results for each task type separately. Wherever you go, you can track your time spent on tasks— Clock speed is available for all popular devices. And no matter how many devices you use, every time you track your tasks it automatically syncs with your Clockify web account. Apps: Mac | Windows | Linux | iOS | Android | Chrome | Firefox Your Clockify Web Account also offers a visual breakdown of the time you spend on tasks – in the form of multiple visual reports you can export and then analyze how and where you can improve your task time. Time.
